

**Nurturing Nature: Environment Day Celebration at
Deshabandhu Mahavidyalaya, Chittaranjan**

Date of the Event: 5th June 2025

On the occasion of World Environment Day, the Eco Club of Deshabandhu Mahavidyalaya organized a street play titled *“The Last Leaf”* to raise awareness about environmental conservation. The event was held on the lawn outside the main building and witnessed enthusiastic participation from students of the second and sixth semesters, primarily from the Departments of History, English, Commerce, and BCA.

Directed by **Dr. Shreyashi Chaudhuri**, Convenor of the Eco Club, the play used the symbolic image of a dying leaf to represent the planet's declining health. Through creative storytelling, it addressed pressing environmental concerns such as climate change, deforestation, and the need for human responsibility towards nature. The students delivered powerful performances, with compelling dialogues and expressive acting that captivated the audience and conveyed a strong message.

A large number of students, faculty members, and staff attended the performance, making the event both vibrant and engaging. It concluded with an interactive discussion session, encouraging further reflection and conversation around environmental issues.

The programme was a meaningful and impactful observance of Environment Day, reinforcing the college's commitment to fostering environmental awareness and action within the campus community.
